

### Nantwich North and West

Area (hectares)	346
Dwellings	4,590
Population	9,150
Electoral Register	6,912
Children (0-15)	1,470 (16.1%)
Working age (16-64)	5,600 (61.2%)
Pensionable age (65+)	2,060 (22.5%)
Population Density	26.4 (per hectare)
Predominate Mosaic Group	B - Residents of small and mid-sized towns with strong local roots

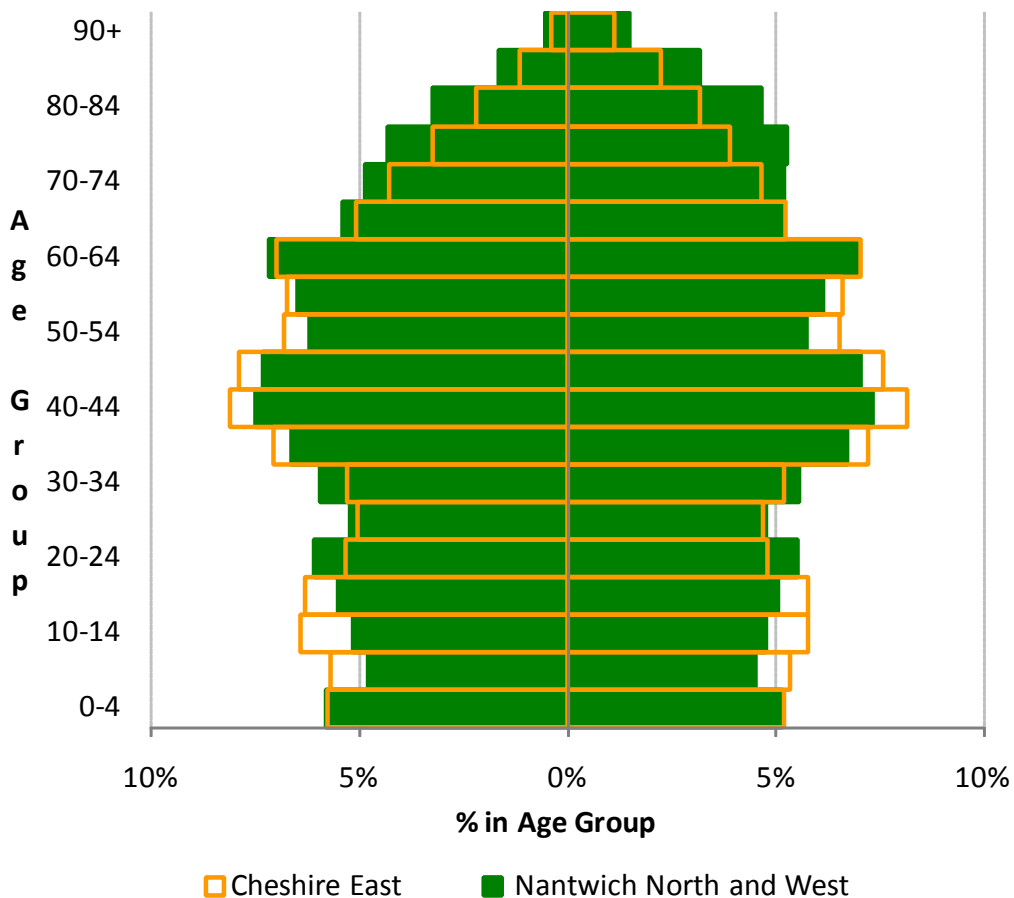

### Summary:

With more than nine thousand residents, the ward is the twelfth largest in Cheshire East. The age profile is slightly older than the Cheshire East average, with more than one in five residents over the age of sixty five.

Average household income is the seventh lowest in Cheshire East, at twenty five percent below average. House prices are also below average, and four out of ten households receive a single occupier council tax discount, the fourth highest proportion in Cheshire East.

Recent education results are similar to Cheshire East averages. Both the rate of crime and ASB are similar to the Cheshire East averages.

### Age Structure

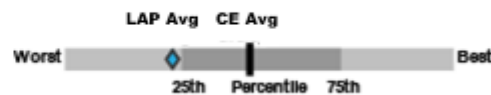

For any value/circle which lies to the left of the centre line – the Cheshire East average – the area is worse than average, any value to the right of the centre line is better than the average.

**Key:**

- Better than the Cheshire East average
- Not significantly different from Cheshire East average
- Worse than the Cheshire East average
- No significance can be calculated

Mosaic classifies all residents by allocating them to one of 7 Supergroups and 15 Groups based on a range of socio-economic, financial and demographic characteristics. The tables below compare the proportion within each ward to that of Cheshire East. The final index column shows how close the ward % is to the Cheshire East %, a figure of 100 would be an identical proportion, values >100 are a higher %.

Mosaic Public Sector Supergroups		Ward %	CE %	Index
A	Rural and small town inhabitants	20.3	16.0	127
B	Affluent households	8.8	24.3	36
C	Middle income families	12.6	20.4	62
D	Young people starting out	8.2	5.7	143
E	Lower income residents	30.2	20.6	147
F	Elderly occupants	19.6	9.3	211
G	Social housing tenants	0.3	3.7	7

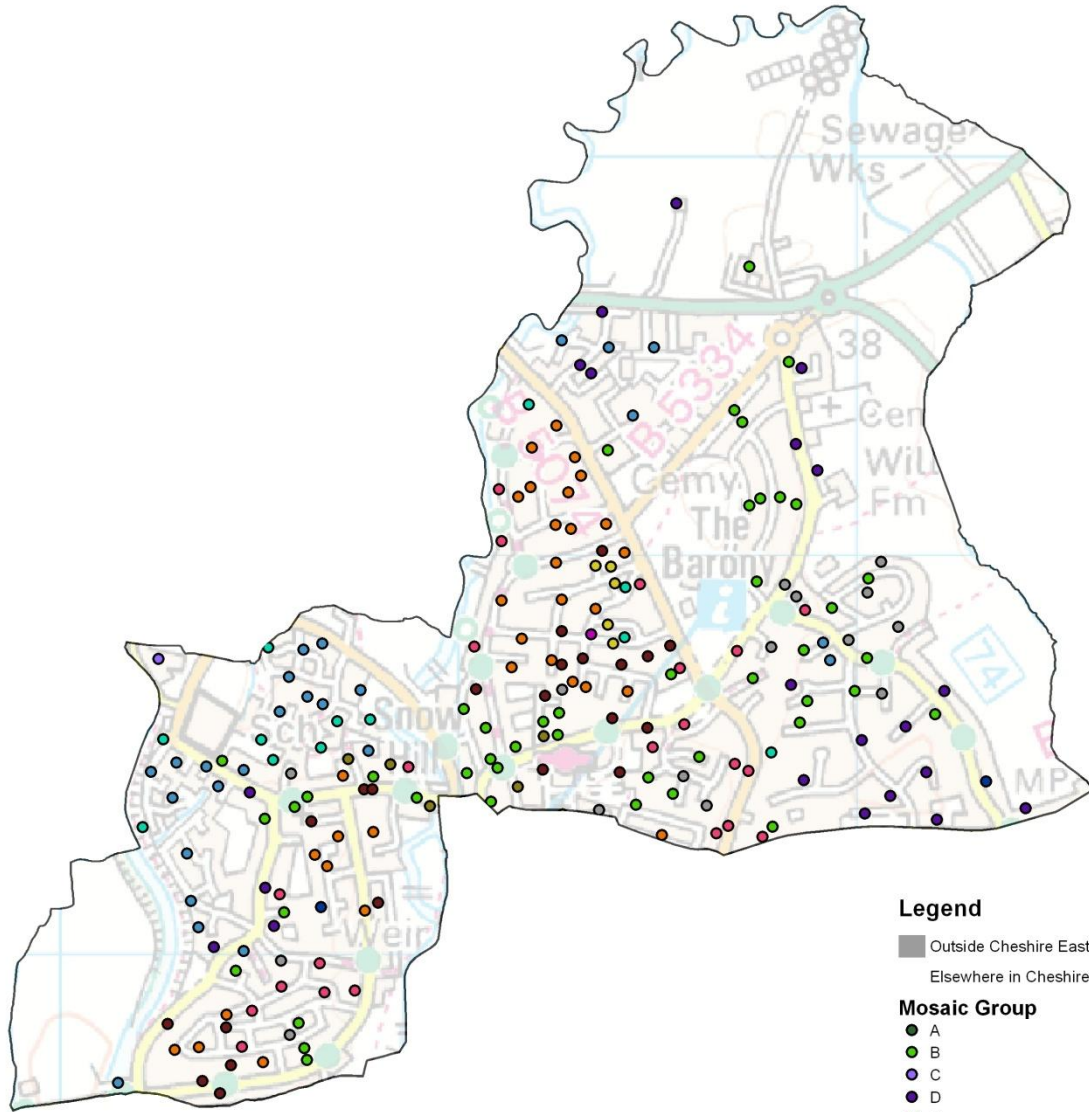

The supergroups have been created to provide a high level overview of an area and are constructed by these groupings are;

- Supergroup A - Groups A and B
- Supergroup C - Groups E and F
- Supergroup D - Groups G and H
- Supergroup F - Groups L and M
- Supergroup G - Groups N and O

Mosaic Public Sector Groups		Ward %	CE %	Index
A	Residents of isolated rural communities	0.0	4.8	0
B	Residents of small and mid-sized towns with strong local roots	20.3	11.2	182
C	Wealthy people living in the most sought after neighbourhoods	0.2	7.4	3
D	Successful professionals living in suburban or semi-rural homes	8.6	16.9	51
E	Middle income families living in moderate suburban semis	1.6	9.2	18
F	Couples with young children in comfortable modern housing	11.0	11.2	98
G	Young, well-educated city dwellers	1.0	1.5	67
H	Couples and young singles in small modern starter homes	7.2	4.3	169
I	Lower income workers in urban terraces in often diverse areas	2.6	6.3	42
J	Owner occupiers in older-style housing in ex-industrial areas	9.5	8.6	110
K	Residents with sufficient incomes in right-to-buy social housing	18.1	5.7	320
L	Active elderly people living in pleasant retirement locations	5.9	4.5	130
M	Elderly people reliant on state support	13.7	4.7	288
N	Young people renting flats in high density social housing	0.3	1.0	29
O	Families in low-rise social housing with high levels of benefit need	0.0	2.8	0

Please note that whilst every attempt has been made to quality check this information, no data is completely accurate. However these profiles are designed to make the best use of available intelligence at the time of producing the profiles. These profiles will be updated as new information is released and as commitments allow.

For some figures, such as education and crime rates, the figures relate to a single year. For instance educational performance only includes 2010 results. Figures for a single year should be treated with caution. Education figures include only those pupils educated in Cheshire East schools and do not include those educated privately.

Where house prices are discussed they are based on the implied house prices based on the council tax band profile. In future revisions recent house price sale data will be included where possible.

Crime proportions are the proportions of the total crime committed that involve that type of crime. When a proportion is high it does not imply that the number of that type of crime is high, only that the proportion of total crimes constituted by that type of crime is high.
